

## Social Security Number Redactions

There are 16 records which NARA has released to the Collection at Archives II after redacting Social Security numbers. The Board may wish to uphold these redactions, based on privacy concerns. These documents contain no other redactions.

Fifteen of the sixteen records are present in the folder. The other record is not present, although its RIF is included (HSCA File 004876). This latter record represents Sam Ruby's tax returns for a number of years in the 1960's and 1970's which he made available to the HSCA. As with the other records in this category, NARA redacted the social security number each time it appears in the multiple returns.
