Subject: RIF #s for HSCA privacy-related documents reviewed by Board on 10/24

The HSCA privacy-related documents reviewed by the Board yesterday fell into four categories: 1) 172 staff payroll records/files contained in three hollinger boxes, 2) 6 staff payroll records/files pulled from the boxes and considered separately by the Board, 3) 16 non-payroll records in which the only issue before the Board was the upholding of an existing NARA-generated Social Security number redaction and, 4) 4 non-payroll records which the Board decided to release in full (except, in one instance, for a Social Security number).

The record numbers listed below are arranged according to these four categories.
