

MEMORANDUM

December 12, 1995

To: Jeremy Gunn

From: Joe Freeman

Subject: Status Report: Processing of Security Classified Boxes

Here is a agency-by-agency summary of the current status of the Security Classified Boxes.

CIA - Manuel has tabbed the Agency's equities in the boxes (orange). Barry, Frank and Lee have looked at them in a cursory way. Barry has indicated that, after this week's Board meeting, he is hoping to send Frank and Lee back to work on this series as well as the Security Classified Testimony and Immunized Executive Session Testimony series.

FBI - Kevin is tabbing FBI equities in the boxes (green). He has also been reviewing the documents. His sense is to hold off on asking Debbie Beatty (sp?) to come in pending resolution of other FBI-ARRB issues.

DOS - Eric has been reviewing and tabbing these documents (blue). He is preparing a summary of DOS document/equities for submission to Nina Noren. Mary has apparently told Eric that she would like to be involved with any approach to Nina. Eric has been more recently diverted to LBJ Library collection and other projects, but will return to the Security Classified boxes with a passion after this week's Board meeting.

DOD - Dennis has reviewed and will soon tab (red) the DOD-equity documents. As you know, he drafted and we have sent a letter to DOD on the more straightforward of the documents with an eye toward the Board taking them up at the January 5th Board meeting. There are a couple other DOD documents which Dennis will draft another letter for in the near future, probably this week, probably referencing the January 31st meeting.
