

## MEMORANDUM

### By Facsimile

December 28, 1995

To: Steve Tilley, NARA  
From: Joe Freeman, ARRB  
Subject: HSCA Medical Evidence

As we discussed earlier today, Jeremy would like to review various items of HSCA medical evidence in advance of January 10th. The four categories of evidence he would like to review are:

1) **HSCA-enhanced versions of the autopsy photos (as opposed to the originals):** according to HSCA Vol. 7 (p. 47 and p. 76), these should consist of twenty-seven 8-by-10 inch color prints prepared by Kodak.

2) **Pre-assassination X-Rays of President Kennedy:** according to HSCA Vol. 7, pp. 44-45, these should consist of three separate sets of X-Rays, dating from 8/14/60 (Dr. White, Case No. 202617, NYC), 8/17/60 (Groover, Christie & Merritt, Case No. 336042, Wash. DC) and 3/14/62 (Bethesda).

3) **Computer-enhanced versions of autopsy X-Rays:** see HSCA Vol. 1, p. 328 and HSCA Vol. 7, p. 110-111.

4) **Dental X-Rays of President Kennedy:** see HSCA Vol. 7, p. 55; as we discussed, these were obtained by the HSCA from the Kennedy Library.

I will alert Jeremy to your intention to have this material's annual inventory completed by the end of the day on Wednesday, January 3rd. This would make a late-week visit by Jeremy feasible and convenient for you and your staff.

I or Jeremy will be back in touch prior to his visit to inform you as to whether any additional ARRB staff will be in attendance.

As always, thanks for your help.
