Agencies that, with additional work, could conceivably finish by September 30

NSA. Because of the nature of NSA material, it has been a very slow process. There are many additional NSA records that need to be processed). The pace must pick up significantly.

INS. Although INS has promised to complete its work within the next two months, it has been extremely delinquent and has consistently failed to meet its deadlines.

NARA (Main).

JFK Library. The ARRB is inclined to designate more assassination records than were originally designated by the Library. Although the Library has been cooperative, there remains a significant amount of work to be done.

Secret Service.

Pike.

HUAC.

Abzug.

Church.
