Represents Gayler (sp) Broadcasting, owner of KTVT in Dallas.

The film was a "work made for hire."

Gayler's position is that it owns the copyright.

Gayler does not (yet) have a position on when the copyright went into effect.

Mills will be sending a letter today.

I gave him our fax number.

I called Vito DiPietro, DOJ

(202) 514-7223

He advised not to distribute tapes.

He advised that if we distribute tapes, we do so with a hold harmless agreement and attach a copy of the letter from Baker.

I called

Heddi Gold
CBS G.C. Office

Doesn't know if Gaylord made claim against CBS.
She will look into issues and get back to me.

Jerry Mills

5:25 pm

Claim is as made.

Gaylord has no problem with CBS.

Asks to be notified before release. I said I would.

He asked if it would be released today.

I said I don't know, but that it is now after business hours today.

He said it would be "highly unusual" for something to be distributed after close of business. I did not comment.

represents

1. Was the material "copyrightable" [i.e., it was trash]
2. If it was copyrightable, on what date did the copyright go into effect
date film made
date of Men Who Killed Kennedy
today
3. If it was "copyrighted," what is the term of years for material created before January 1, 1964.
4. Was there a waiver
