

ARTHUR M. SCHLESINGER PAPERS

WHITE HOUSE FILES

CLASSIFIED SUBJECT FILE 1961-1964

This file was artificially created by the Kennedy Library in the early 1970s when national security classified items were segregated from the unclassified items during processing. This division of the Subject File resulted in two separate files: The Subject File, which contained the unclassified material; and the Classified Subject File, which contained the classified material. Later, re-integration of materials was accomplished through Angola (boxes WH-1 - WH-3). The remainder of the files will not be reintegrated but will remain as two separate files.

A list of folders follows. Many of these folders have not yet been processed and are currently unavailable for research use. Researchers who wish to be notified of the opening of folders should complete the Openings Notification Request form available in the Library's Research room or from the Library's Foreign Policy Unit.

_ indicates unprocessed materials.

_+ indicates an unprocessed folder that contains some documents made available as the result of special review

<u>Box #</u>	<u>Folder Title</u>
WH-25	is empty following re-integration of materials.
WH-26	_Argentina _Australia _Austria _Belgrade Conference _Berlin _General _German Peace Conference _Bolivia
