

ACKNOWLEDGMENT

A very big thank you to Col. Tim Wray for his help and guidance as I was researching Exercise Big Lift. Thanks also to Christopher Barger, without whom I would not have been in a position to do this research. Thank you to Joseph Masih, who put all of the pieces together for the final product long after my departure. Finally, to the members and staff of the Assassination Records Review Board and all of the people at the various facilities who helped me along the way and made this a pleasant experience.
