

Memorandum for the Record

May 15, 1997

TO: Douglas Horne

FROM: Joseph Masih

cc: Michelle Combs

SUBJECT: Department of State Documents from Department of the Army PTC
microfilm.

Michelle Combs informed me that Nina Noring of Department of State does not consider *Limited Official Use Only* documents for declassification. They will review documents with official classification markings. Of the six documents we sent to her (See attached call report for a full listing of RIF numbers.), two of them have confidential stamps. Ms. Noring said that the Department of State did not stamp those documents confidential. However, they have no objection to the release of their contents.
