Re: DOD Review of HSCA Documents (4)

Dear Mr. Aly:

Our staff recently discovered an additional, previously-unreleased Department of Defense document in the files of the House Select Committee on Assassinations for your review. This document is a 1978 memo from DOD Assistant General Counsel Robert Gilliat, Subject: "Providing Information From Personnel Records to Congress" (copy attached).

As before, should you recommend that this document not be released, either in part or in its entirety, please explain your reasons in full for the Board's consideration. We would like to include this document on the Board's agenda for its meeting on March 18-19, and so would appreciate a response not later than March 8, 1996. Again, I am attaching a form to facilitate your response. Please direct any questions or concerns to Colonel (ret.) Timothy A. Wray, our Chief Analyst for Military Records.

Sincerely yours,

David G. Marwell
Executive Director
