MEMORANDUM

TO: Phil Golrick  
CC: Jeremy Gunn  
From: Joseph Masih  
Subj: U.S. Postal Records ready for NARA  
File No: 4.0.2

I went over to the U.S. Postal Inspection Service and met with Betty Ball. We reviewed the documents that they had at L'Enfant Plaza which are ready for transfer to NARA.

The documents have RIFs attached and an accompanying disk. The disk has already been read into our database by Chet. There are only a handful of documents which have redactions and they are primarily names and addresses of individuals interviewed by Postal Inspection agents immediately after the assassination in coordination with FBI and other law enforcement agencies. None of the names which have been redacted appear, at first glance, to be informants.

Unfortunately, the documents are not originals. Based on our Friday conversation, our next step will be to contact Betty and ask for the originals and second to get a consent release on those handful of redactions.
