RE: Postal Documents

After making a comparison between the printed RIF log from the disk provided by the Postal Inspection Service and the actual document RIFs, I found that the following RIFs in the disk log have no corresponding document:

1691000110102	Appears with restriction 24 on the disk.
1691000110123	
1691000110051	
1691000110040	
1691000110122	
1691000110112	
1691000110000 -- 1691000110008	
1691000110105	
1691000110107 -- 1691000110111	
1691000110113 -- 1691000110115	
1691000110124	
1691000110135	
1691000110144
