Subject: Review Board Decisions Regarding US Secret Service Materials

At the August 5-6, 1996 meeting, the Review Board designated 8 protective surveys for the October 31, 1963-November 21, 1963 period "assassination records." These were planned Presidential trips to the following cities: Philadelphia; Elkton, Maryland; New York; Palm Beach; Cape Canaveral; Miami; Tampa; and San Antonio. The Review Board also designated a 13-minute interview (on a tape cassette) with Chief James Rowley on August 7, 1963, an "assassination record."

The Secret Service had sought to postpone protective information and names in five documents:

154-10002-10286
154-10002-10319
154-10002-10297
154-10002-10232
154-10002-10257

After some discussion with the Board, Jane Vezeris (USSS Administration), Donald Worrall (USSS Operations), and Donald Personette (USSS Legal Counsel) agreed to prepare evidence and make an oral presentation explaining these postponements at one of the the Board's October, 1996 meetings.
