Re: FBI Records in US Secret Service Files: Raymond Broshears, Pedro Diaz Lanz, and
Abraham Bolden

Dear Ms. Keeley:

I am writing to provide you with information regarding the US Secret Service files on Raymond Broshears, Pedro Diaz Lanz, and Abraham Bolden. Our understanding is that on August 1, 1996, and October 16, 1996, Mr. John Machado of the US Secret Service referred portions of these files containing FBI equities for your review.

At its March 13-14, 1997 meeting, the Assassination Records Review Board carefully examined these FBI documents. The Review Board determined that 29 pages from the Broshears file are not believed to be related to the assassination of President Kennedy. You do not need to review them under the John F. Kennedy Records Collection Act of 1992, 44 U.S.C. § 2107 (Supp. V 1994).

The Assassination Records Review Board also examined 48 pages of records from the US Secret Service file on Pedro Diaz Lanz and 12 pages of records from the Abraham Bolden file. The Review Board determined that both of these files are "assassination records."

We appreciate your assistance .

Sincerely yours,

David G. Marwell
