Eric:

During his interview, Agent Hosty pointed out a statement by Robert Bouck of the Protective Research Section in Bouck's Warren Commission testimony. Bouck stated that he had supplied the Warren Commission with a list of 18 things known to 4 other Federal agencies before the assassination. Bouck's comment is from vol. 4, page 312 (see attached). I have not found this list in the Secret Service exhibits provided by Bouck in Vol. 17, starting with #760.

Would you please check Martha's list of Warren Commission exhibits to see whether Bouck's list of items is included in some secret or restricted category of Commission exhibits? If you find it, please make a copy.

Thanks,

Joan
