

MEMORANDUM

October 2, 1997

To: Tom Samoluk
From: Joan Zimmerman
Subject: HSCA and Warren Commission Referrals

I. HSCA

The following information is from the HSCA database (equity-rec series view). All of the documents listed below have RIFs indicating that they were referred by NARA in 1993. My experience since August 1997, suggests that only the CIA returns these old referrals. Even so, I have found it useful to send copies to the CIA to speed the process along. CIA sometimes returns documents that do not appear in the equity-rec series view, which suggests that there is an undetermined number of documents whose equities are unclear. None of the other agencies has responded unless I copied the document and sent it.

In many cases, the RIF does not indicate which agency has equities in the document. Some of these are labeled "none" and others are audiocassettes, special media, etc. The total number of non-identified documents is:

163

Documents identified by agency in the database appear as follows:

Army	5
DOD	2
CIA	156
DEA	1
MLK	2
Navy	5

NSA	3
FBI	255
DOJ	4
IRS	6
USIA	1
FAA	1
State	5
INS	1
USMC	1
HSCA	69
TOTAL	680

(The CIA segregated collection, which Bob handles, totals 1061.)

II. WARREN COMMISSION

I spoke with Steve Tilley this morning about Warren Commission referrals. He said that a few months ago, Brian had gone through 50 boxes containing documents that had never been referred. He placed green tabs on the documents needing action. Eric copied all of these documents and brought them back to ARRB to prepare them for referral. This is the only information I have on Warren Commission referrals.
