Eric:

At College Park please look for the following:

In the USSS Official Case File:

- Any reports by SA Roger Warner
- Any reports by SA Howlett (Dallas)
- Any reports that mention Sylvia Odio
- Any reports that mention Father Machann

From the Lee Mathews Memo: Dallas Police Department investigations of Right-wing groups are in the Warren Commission collection, i.e. Entry 22 is WC not USSS Official Case File

If you have time, please check with the tapes and recordings area (I think they are on the 4th floor) at NARA to confirm that there is no tape of the motorcade itself recorded by the White House Communications Agency, especially the Charlie frequency. These communications went from the motorcade through the Communications Center at the Sheraton-Dallas Hotel at least as far as to the airplanes at Love Field, if not to the White House. I doubt that the tapes are in the Archives. Please confirm this at NARA so I can ask the Secret Service for them.

THANKS!
