

MEMORANDUM

April 19, 1996

To: The File

From: Kevin Tiernan

Subject: Documents Received from FBI April 18, 1996

Phil and I went through the two boxes of documents to determine how many of the consent release documents from the December and March Federal Register notices were included. Attached are the lists published in the Federal Register with check marks on those documents that were in the boxes. This transfer should complete the process for the December consent release list. The FBI release scheduled for approximately May, 1, 1996 should complete the process for the March consent release list.
