

MEMORANDUM

March 27, 1996

To: Carol Keeley
From: Phil Golrick
Subject: FBI Documents in HSCA Numbered Files

We expect periodically to identify documents in the HSCA collection that have already been processed and opened in full by the FBI/JFK Task Force. In such instances we will identify the documents to you and, in so doing, accelerate the referral process. We have identified only one such document to date. It is HSCA # 002299 (1801010110090), which is a duplicate of 62-117290-268 (1241027410112).

Please indicate your consent to the release of the HSCA copy on the enclosed copy, and we will notice it as a consent release in an upcoming Federal Register. As always, thank you for your cooperation.
