The Review Board Staff prepared cover sheets for each document to be reviewed at a Joint Declassification session by filling in the general descriptive information.

Each relevant agency then stamped the cover sheet of the document. The normal Review Board staff review process was triggered when an agency claimed postponements in the document.

Identification Aid created by the agency which originated the document.

Identification Aid in Review Track database prior to postponement analysis by Review Board staff.

Identification Aid in Fast Track Database following postponement analysis by Review Board staff.
