Re: Motion to Unseal BriLab Conversations

Dear Ms. Mann:

I enjoyed talking to you last week about the work of the Assassination Records Review Board. We are grateful for your willingness to assist us in filing a Motion to Unseal thirteen conversations obtained by the FBI as a result of its court-authorized wire and oral interceptions, in the matter of United States v. Carlos Marcello, et al. -- the BriLab matter.

I am enclosing a draft Motion to Unseal. Please do not hesitate to make whatever changes you believe are necessary before filing the Motion. If you have any additional questions or concerns, please call me or Jeremy Gunn, our Executive Director and General Counsel, at (202) 724-0088. If you would like to fax any substantive changes in the Motion to us here in Washington, our fax number is (202) 724-0457.

Thank you for your continuing assistance with our work.

Sincerely,

Laura Denk

Enclosure
