Things to check on in the fees section:

1) Fees for record requests

(a)(3)

“Requests for certification of copies of official Review Board records must be accompanied by a fee of (\$) per document...”

(b)(2)(i) and (iii)

What is “**average hourly projected benefits cost**, for document search time and for document review time?”

(b)(2)(viii)

“Whenever the Review Board estimates that duplication or search costs are likely to exceed **(\$)**, it shall notify the requested of the estimated costs...”

(b)(4)

double-check the **lowest** amount at which we can require advance payment

(b)(6) -- annual adjustment of fees

Is there any provision in the statute or in the OMB regulations that require us to republish our fee schedule annually? (or can we just do it once?)

2) Fee Schedule Attached to Regulation

This question is related to the question under (b)(6) above - Should the fee schedule be a separate document in the Federal Register?
