Dear Mr. Petree:

This is a letter of appreciation for all the assistance provided by members of your staff during my recent trip to NPRC. As a group, I found your staff to be very knowledgeable and efficient. Each of the records I had requested last week had been pulled and various staff members took the time to check with me frequently for any new requests or to provide additional information on how various records might be located. Eric Voelz in military records and Gary Maxwell and Ray Hasting in civilian records were particularly helpful with their time and expertise. Thank you for your cooperation with the Board in our search for additional assassination records.

Sincerely yours,

K. Michelle Combs
