We also discussed a number of other postponements, some in the documents listed above and some in other documents identified for presentation to the Review Board on July 17-18. I explained to you why the ARRB staff believes that the FBI could also release this material consistent with its own current policies. You agreed to review these postponements and to advise me early next week as to the status of these postponements.

Finally, as we discussed, if the FBI has already fully released a document identified in a Request for Evidence form enclosed with David Marwell's letter to Terry O'Connor dated June 9, there obviously is no need to provide evidence with regard to that document.

As always, thank you for your cooperation.
