To: Steven D. Tilley

National Archives

From: Ronald G. Haron

Subject: Church Committee Records

I am transmitting for the Protected Collection a set of the Church Committee documents that have been postponed in part. The documents consist of :

1. ten black binder notebooks;
2. two file folders; and

For the most part, the documents highlighted in the notebooks show the redactions originally made by the Senate Select Committee on Intelligence in 1993-94. These documents have been re-processed under current Board guidelines, and Kris Wilhelm of the Center for Legislative Archives will be preparing the newly redacted versions. While Kris will be preparing most of the re-processed documents for the Collection, *there are some documents in the notebooks that have been opened in full and, as to those, you need to have copies made and placed in the JFK Collection.* The RIF nos. for those "open in full" documents are:
