

MEMORANDUM

TO: Matt Fulgham, NARA

FROM: Jerrie Olson

DATE: September 23, 1998

SUBJECT: 2 Series Files in SCIF for Closed Board Meetings

Even though the minutes may be written in such a way as to require little or no redactions in some instances, the handwritten notes taken during the meetings may have classified information not spelled out in the transcribed minutes. The tapes are even more likely to have classified information than the notes.

The tapes and minutes in the safe in the SCIF contain SCI material.
