Dear Ms. Vogt:

Pursuant to your request of Joe Freeman of our staff, I have enclosed a more comprehensive information packet than the one I forwarded in June. I hope it proves helpful. Please don't hesitate to get back in touch should you desire any additional material.

Unfortunately, my remarks at the annual meeting of the Society of American Archivists -- about which you also inquired -- were extemporaneous and mainly consisted of a section-by-section review of the JFK Act. The session was taped, however, and it may be that the conference's organizers could provide you with a transcript.

Finally, please rest assured that we will do all we can to expedite NARA's processing of the classified records from the Russell Papers. Thanks again for your interest and support.

Sincerely,

David G. Marwell  
Executive Director
