Re: Review of Clemard Joseph Charles File

Dear Mr. Haggett:

In the Spring of 1997, Mr. Joseph Masih and I visited Ms. Elaine Rogic, Chief of the Investigative Records Repository, reviewed the file on Clemard Joseph Charles, and requested that IRR conduct declassification review in accordance with Section 6 of the JFK Act. Subsequently, she transferred a copy of that file to you for declassification review in accordance with established procedures for that type of file.

At your invitation, Mr. Masih and I reviewed the file again in your office and flagged those pages that we felt qualified as assassination-related records; you agreed to conduct declassification review in accordance with Section 6 of the JFK Act.

Confirming my conversation with you of November 28, 1997, I writing to request that you complete declassification review of the applicable portions of this file, and transfer said pages to the Assassination Records Review Board, no later than February 28, 1997, with any desired postponements identified, along with evidence supporting those postponements.

Sincerely,

Douglas Horne  
Chief Analyst for Military Records
