Re: (U) NSA Equities in FBI Documents

Dear Ms. Collins:

(U) Enclosed are ten assassination-related documents (124-10256-10176, 124-10183-10280, 124-10177-10460, 124-10066-10455, 124-10163-10129, 124-10274-10065, 124-10273-10153, 124-10025-10025, 124-10027-10401, 124-10151-10091) found in FBI files. Each appears to have NSA equities. Please review these documents to determine whether NSA desires to postpone any portion of them. If NSA desires no postponements, please advise us of that fact; if NSA does desire postponements, please indicate to us the portions for which postponement is requested and the justifications for each.

(U) We request that your review of document 124-10256-10176 be expedited since the ARRB Board has voted to release it, and the FBI has notified the ARRB that the NSA may have an equity in this document.

Note: When separated from classified enclosures, this letter is UNCLASSIFIED.
