

MEMORANDUM

January 8, 1998

To: Mr. Dan Cragg, OSD

From: Cathy Rodriguez

Subject: Assassination Record - Ruby Polygraph Paperwork

Ron Haron asked that I return to you the Jack Ruby polygraph charts that you had provided for inspection. We appreciate your forwarding these charts to us so expeditiously. In view of the fact that this is your only copy, we are hereby returning these charts to you to be processed by your agency as an assassination record and included in the JFK Collection at NARA. This would include making a Record Identification Form (RIF). We are retaining copies of other related Ruby papers, copies of which your office does have, and request that you process those papers as assassination records as well.

Thank you for your assistance in making copies of these records available to us. If there are any further questions, please contact Ron Haron or myself at the number above.
