Dr. John J. Fitzpatrick  
5300 Stoney Creek Drive  
Oak Lawn, Illinois 60453

Dear John:

I want to thank you for your examination of President Kennedy's autopsy photographs and X-rays at the National Archives on February 6. Your observations were of great benefit to me and to the other members of the Review Board's staff who were present in helping us understand the forensic evidence.

We are continuing our work and we remain very interested in any other observations or insights that you might have.

Once more, thanks for your assistance and the generous contribution of your time.

Sincerely yours,

David G. Marwell  
Executive Director
