

## MEMORANDUM

November 1, 1996

To: Carol Keeley  
JFK Task Force, FBI

From: Phil Golrick  
ARRB

Subject: Request for Access to November 1963 Technical Coverage

As part of the Review Board's efforts to locate any FBI assassination records that may not already have been identified under the JFK Act, I made an oral request to you for information about certain categories of technical coverages that the FBI may have had in 1963. You showed me information gathered in response to this request earlier this week.

This memorandum records the ARRB's request to review records concerning information obtained during the time from November 21 through November 30, 1963, through some of the technical coverages you identified in response to my prior request. I will further specify what we are requesting orally. As I know you understand, we are requesting access to these records solely in order to determine whether any of them may be assassination records.

As always, thank you for your cooperation.
