Dear Harry:

Thank you for your letters of January 12, February 16, February 22, and March 6. I have received them and consider them quite helpful. I am sorry we did not connect by telephone. I tried to return the call. Many of your suggestions are being examined by the Board's research and investigative staff and I hope that we can be helpful in finding materials and records that may provide answers to the many lingering questions. I do feel that the board's pace with respect to review of CIA documents has picked up considerably in the last several months.

I will try to contact you in the near future. Thanks very much for your significant contributions to the work of the Review Board.

Sincerely,

John R. Tunheim
Chair
