Pierre A. Finck, M.D.
ch Saussac #20
1256 Troinex, Geneva
Switzerland

Dear Dr. Finck:

I am writing you on behalf of the Assassination Records Review Board, an independent Federal agency established pursuant to the President John F. Kennedy Assassination Records Collection Act, 44 U.S.C. § 2107. The Review Board, whose members are appointed by the President and confirmed by the Senate, is charged with collecting records related to the assassination of President Kennedy. I am enclosing some explanatory material about the Review Board and its mandate.

The specific purpose of this letter is to request of you any additional, previously undisclosed records that you may have pertaining to the autopsy on President Kennedy. We are aware of many items already placed in the public record: your two page letter to General Blumberg of January 25, 1965 summarizing the results of the autopsy on President Kennedy; your subsequent transmission to him on February 1, 1965 of 23 pages of typed notes regarding the JFK autopsy; the 140 pages of typewritten notes, letters, and correspondence which you provided to the House Select Committee on Assassinations in 1978; the transcript of your 1969 Shaw trial testimony; and the transcript of your March 11, 1978 sworn testimony before the HSCA Forensic Pathology Panel (which was previously sealed) are all currently part of the JFK Records Collection at the National Archives, pursuant to the provisions of the JFK Act.

We are seeking any other materials you may hold that relate to the death of President Kennedy. These would include, but would not be limited to, any contemporaneous or after-the-fact notes regarding the autopsy or autopsy findings; any autopsy face sheets or drawings; or any other written material not mentioned above that could be considered related to the assassination of President Kennedy.

The Review Board is not empowered with reinvestigating the assassination, but is primarily concerned with identifying, locating and making available assassination records. Your role in history, although thrust upon you by chance, placed you in a unique position in late 1963, and as you know there is still a considerable amount of interest in certain aspects of that tragic event. Your cooperation with the Review Board in completing the record of the President's autopsy, to the fullest extent possible, is vital.

Pierre A. Finck
