Dear Ms. de Varona

I would like to thank you again for the courtesy that you and your office showed to Dave Montague and me during our recent visit to your office. We appreciate your efforts to locate materials on Zenith Technologies and on JMWAVE.

We currently are deliberating on whether we should send a staff person to review carefully the DRE files that you made available for my brief inspection. We are very pleased that it is your intention to open the records, without redactions, as soon as you are able to devote resources to the project. As I mentioned to you, the records appear to be very interesting and would provide a valuable resource for an interesting dissertation.

Sincerely,

Dr. T. Jeremy Gunn
General Counsel and
Associate Director for Research and Analysis
