MEMORANDUM

To: Review Board

From: T. Jeremy Gunn

Subject: Enclosures for November 17, 1997 Board Meeting

I am enclosing the following documents that are relevant to the November 17 Meeting:

Tentative Agenda
Memo by Legaspi on NBR issues in CRC records¹
Memo by Combs on *Ramparts Magazine* Damage Assessment
Memo by Denk on Foreign NBR issues in FBI Segregated Collection
Draft letter from Freeh to Legats²

¹With regard to NBR (“no believed relevance”) issues, the staff has thus far identified the following topics after a review of all CIA and FBI records:

- Collins Radio (CIA) (decided in October meeting)
- CRC (CIA) (November agenda item)
- *Ramparts Magazine* (CIA) (November agenda item)
- Office of Personnel files (CIA) (January agenda item)
- Miscellaneous (CIA) (January agenda item)
- Foreign government information in segregated collection (FBI) (November agenda item)

Although we expect that there may be some additional NBR items in the FBI and CIA files, we believe that this list covers the vast majority of the issues. We anticipate that there will be some NBR issues from other agencies, particularly the INS.

The ARRB staff then wrote a completely different draft that was sent to the FBI. The enclosed version includes the FBI’s edits (the changes were mostly stylistic) of the ARRB staff draft. Although we believe that our version was more elegant, we also
