Dear Noel:

As we discussed by phone today, I was very unhappy to see that I was cited as a source on page 386 of your book *Bloody Treason*, which suggests that I had conveyed information to David Lifton about classified information.

I want the record to be perfectly clear that I never have provided any information to anyone, other than security-cleared government officials, about the substance of any redaction. I take my security oath very seriously and I deeply regret that anyone would suggest anything to the contrary.

I appreciate your having expressed your regrets on the unfortunate passage.

Sincerely,

T. Jeremy Gunn  
Executive Director
