Dear Jim:

After our telephone conversation yesterday afternoon I continued to work on your suggestion of the D.C. Court of General Sessions case filed by Jim Garrison as an assassination-related record. With the change in the District of Columbia court system, as we discussed, I'm not having much success tracking down the appropriate court system to which to make inquiry. Will you please fax me whatever document(s) you have that mention this case? Thank you. I'm hoping there will be a docket number or court session number on the document that I can use to trace the case. I'm holding off on my inquiry of this until I hear from you; therefore, a reply at your earliest convenience will be appreciated.

Regarding the Mr. Hemard lead and film—do you have any idea as to his name, first initial, address, etc.? If so, please fax that to me as well, as it will make my inquiry to the long list of Hemard's in the telephone book a lot more efficient.

Thank you again for the information. Please stay in contact, Jim.

Sincerely,

Anne Buttimer, Esq.
Chief Investigator
