Dear Dr. Russo:

Thank you for taking the time to speak with me recently about your late brother. As we discussed, the Review Board is interested in any records (files, tapes, journals, binders, etc.) that your brother may have had that might relate to the assassination of President Kennedy. We would appreciate your reviewing the materials that your brother left behind to determine whether there may be anything of interest to the Review Board.

For your information I am enclosing a fact sheet about the Review Board, a copy of our legislation, and a pamphlet published by the National Archives that describes the JFK Records Collection. Please review this material and feel free to contact me at ext. 258 if you have any questions.

We appreciate your assistance and your offer to send copies of your brother's death certificate and autopsy report.

Sincerely,

David R. Montague
Investigator
