Dear Mike:

I enjoyed meeting you at our meeting at the Sixth Floor Museum offices. I thought that we had a very productive meeting. As I indicated, it seems to me that we are all doing the same thing: making sure that the American public has the broadest possible access to the record of the assassination of President Kennedy. Our primary concern, as it should be, are the records that are considered to be evidence.

I have not seen Dave Bieging since our meeting, although I saw his mother yesterday. I will greet him for you when he next shows up in Minnesota!

Thank you for your hospitality. We look forward to working with you.

Sincerely,

John R. Tunheim
Chair
