

April 2, 1996

Mr. Harrison E. Livingstone  
3025 Abell Avenue  
Baltimore, MD 21218

Dear Mr. Livingstone:

Thank you for your March 30, 1996 letter regarding several additional matters related to the assassination of President Kennedy.

First, the transcripts of the Humes and Boswell depositions will be made available when we have completed our pursuit of records and information related to the medical evidence. You will be advised when they are available.

Second, there are other key individuals connected with the medical evidence under consideration for depositions. However, besides Humes and Boswell, no other depositions relevant to the medical evidence have been taken yet. Until the depositions are taken, I am not at liberty to discuss specific names.

Third, I have provided copies of the information you enclosed to the appropriate members of the staff for careful review in connection with our pursuit of records related to the medical evidence.

Again, thank you for writing to the Review Board and for providing additional information.

Sincerely,

Thomas E. Samoluk, Esq.  
Associate Director
