Subject: final versions of medical deposition supplemental info

Date: July 20, 2017

Pages: 8, including this cover sheet.

COMMENTS:

Dear Board members:

I have attached the final versions of the announcement (sent out July 24, 1998) and the staff memo that is accompanying the medical depositions.

In the event that you receive any calls about this, the following are suggested talking points:

1. We conducted these depositions in an attempt to clarify the medical record regarding the assassination of President John F. Kennedy.
2. We are not making judgments about the contents of these depositions. That is something researchers, historians, and students of the assassination can decide for themselves.
3. We are releasing the depositions two months prior to our sunset date because of high public interest in this aspect of the assassination.
4. The Review Board is attempting to respond to public inquiries regarding the Parkland Hospital medical staff. To the extent that the Review Board obtains additional relevant information on medical evidence or the autopsy, it will be released to the public before September 30, 1998.

Have a great weekend.

Eileen
