Galion, OH 44833

Dear Mr. James:

Assassination Records Review Board member Dr. Kermit Hall forwarded your letter to our office in Washington, DC.

The Review Board appreciates the thousands of suggestions and leads it has received from the public.

Although the information is often helpful, we cannot follow-up with everyone and provide updates on our work pertaining to his or her lead.

With that in mind, if you would like to send your information (book) to us, I will be happy to review it and forward it to the appropriate staff members. Once it becomes a part of our files, it will be transferred to the National Archives and Records Administration when the Board has completed its mandate, for permanent inclusion in the JFK Assassination Records Collection.

I hope this information is helpful to you. If you are still interested in forwarding your book to our office, I will keep an eye out for it.

Sincerely,

Eileen A. Sullivan
Assistant Press and Public Affairs Officer
