Re: Weekly Investigative Update

Anne (4 day week)

\* I continued contacts with Uhaul, All Safe Lock and Key, and related contacts for Gum Shoe Issue 62, Richard Case Nagell. On Thursday I developed information that Nagell had and still has a rental unit in Tucson, Arizona. Tom handled the matter from that point on.

\* FINCEN continued to send results from Issue 23 inquiries completed prior to the government shutdown (our liaison team was furloughed.) I spent much of the week entering this information in Gum Shoe. To update you on this issue, we have contact information (addresses and in many cases telephone numbers) for 44 of the 134 Church Committee names; for 129 of the 268 HSCA names; for 33 of the 45 Pike Committee names, for 5 of the 13 Clark Panel names; for 2 of the 39 Rockefeller Commission names; and for 27 of the 52 Warren Commission names.

Dave

\* Sent letter to Patsy Paschall concerning a possible donation of her film.

\* Followed up with Thomas Young and Owen Laughlin concerning the Charles Bronson film. Neither has returned the telephone messages we left.

\* Received a new record for the JFK Collection, a report written by Los Alamos Laboratory detailing its analysis of the Nix and Zapruder films.
