Subject: Review of FBI's Dallas Field Office files on the Fair Play for Cuba  
Committee  
(FBI-24)

I have completed my review of the FBI's files on the above-mentioned topic. The assassination related records that I found have more than likely been processed in FBI HQ on the FPCC but to ensure that they are processed I have listed them and recommend that we show them to Carol Keeley and ask the FBI to process them under the JFK Act.
