Subject: Review of FBI File's on American Gambling Activities in Cuba  
(FBI-32)

I have completed my review of the FBI's files on the above-mentioned topic. I did not find any material that is related to the assassination of President John F. Kennedy.

The files consist of pre-1959 records monitoring the activities of primarily Florida racketeers trying to establish gambling and hotel facilities in Cuba.

The Miami and Tampa field offices and the Havana Legat reported to FBI HQ that they did not have any files on this subject (see attached).

The following are non-assassination related files with the subject of American Gambling Interests in Cuba:
