*RE: Executed originals of proposed interpretive regulation for  
publication in Federal Register*

*Enclosed are three executed originals of the Assassination Records Review Board's proposed interpretive regulations. I made the changes we discussed yesterday over the phone and that were included in your fax to me that I received yesterday afternoon. I have also attached a "Request for Special Handling" form.*

*It is my understanding that this will be put in the public reading room on Monday and published in the Federal Register on Tuesday, February 7. If this is not the case or if there are any problems with the enclosed text, please give me a call at 724-0815. Thanks so much for all of your help on this -- I really appreciate it.*
