RE: Attached memorandum from the White House on Hatch Act provisions governing executive branch employee activity in incumbent Presidential re-election campaigns

The attached memorandum from the White House counsel's office provides guidance for all executive branch employees regarding the range of permissible activities related to the re-election campaign of an incumbent President. I am disseminating this to all Board members and staff at the request of the White House to ensure that everyone is aware of what the law requires should anyone find themselves affected by it. Please let me know if you have any questions.
