RE: Draft of privacy briefing paper

*Attached is a draft of the privacy briefing paper I've prepared. It still needs some clean-up and polishing, but please let me know if you have any substantive comments you'd like me to incorporate into the final version. (Edits are welcome too, if you have the time or inclination.)*

*Also, Jeremy will designate for Part V which items will have documents in the briefing book and which will be reserved for discussion only at the board meeting.*

*FYI, we're aiming to FedEx the briefing book out on Thursday night.*
