Dear Mr. Barber:

I would like to thank you for discussing your recollections of your 1980 visit to Robert Groden's house with Ms. Anne Buttimer, and Mr. Dave Montague, members of our investigative staff.

In order to document formally your observations, we have prepared a draft affidavit recording the substance of the experience that you recounted to us. We would very much appreciate it if you would examine the draft and make any corrections, emendations, or additions that you believe would more accurately reflect your observations. Once you have reviewed the draft, please call Ms. Laura Denk and let her know of any revisions that you believe should be made. At that point we will send you a corrected version for your signature.

Thank you again for your continuing helpfulness.

Sincerely yours,

T. Jeremy Gunn  
General Counsel
